News Release

August 28, 2013

The Louisiana Chip Mill in Plain Dealing, Louisiana was re-inspected for the SHARP Award on August 21st. The mill passed the inspection and was recommended for another two year certificate. The inspection consisted of documentation examination and an onsite inspection of the plant.

Upon receiving this award, it will be their 12th SHARP certification. They received their first SHARP Award in 2001.

SHARP recognizes small employers who operate an exemplary safety and health management system. Acceptance of your worksite into SHARP from OSHA is an achievement of status that singles you out among your business peers as a model for worksite safety and health. Upon receiving SHARP recognition, OSHA exempts your worksite from OSHA programmed inspections during the period that your SHARP certification is valid.
