RE: LEED v3

Dear Mr. Rachford,

The purpose of this letter is to confirm that Momentive™ 4720 and Momentive™ 5025A, currently supplied by Momentive Specialty Chemicals Inc., does not contain urea-formaldehyde polymer that would disqualify it for the credit described as IEQ Credit 4.4 for Low Emitting Materials - Composite Wood and Agrifiber Products in LEED-NC, Version 3, published by the US Green Building Council.

As always, Momentive Specialty Chemicals Inc. appreciates your interest in our products. If we can be of further assistance in this or any other matter, please do not hesitate to contact us.

Regards,

Sydney Lindquist
Sustainability Leader
